

# A real letter from Santa Claus!

By lida Tenolahti

On Friday( 13.12.13) I had a little surprise for the children ;)

In the morning, at English nursery we made Santa Claus handicrafts with the children we prepared the model for it beforehand and now it was time to try it with the children:

Later ....we received a real letter from Santa Claus in Finland!Again big thanks to my mum, it was her idea ;)You can actually book a letter from Santa Claus from the internet and she did it.Besides the letter there was also a picture of the Northern lights and the envelope was signed:*Iida and children* ;) Natalie copied the letter and the front part of the envelope for the children and they made their own letter`s from Joulupukki,Santa Claus :) I was a little afraid that the letter won`t make it here at time, it was already two weeks late. But for the theme that we had, the timing was just **perfect!**
