Klubičko
Kroměříž

CONCLUSIONS

We shared and discuss about 4 topics, and below are the main results:

1. Why did you choose to do EVS? Why in Czech republic

The aim of **travelling** is the most mentioned reason. Also live **Erasmus life**, leave the **comfort zone** and discover a new **culture**, country and people are important reasons. Get working experience and develop ourselves is also important.

All coincided that they choose the first organization who answered, which was Czech one.

2. Which activities are you running out? Which one do you like the most?

All volunteers **work with children** and youngsters. We all agree that the best part of our job is working in the **kindergarten**, **high school**, and teaching **languages**. **Montessori** classes are high rated.

Especial mention to the different events we join, and the importance of our mini-projects.

3. What kind of difficulties are you facing?

The main difficulty we are facing is the **communication**, because of the **misunderstanding** with colleagues, lack of **information** (communication style or canals) or the **Czech language** itself.

Also were quite relevant difficulties related with our **task**, due to the lack of independence, difficulties to implement new ideas, or useless work not related with children.

4. What are your plans for the future?

Even most of us feel it uncertain, there are 3 main routes with relevance: **travelling**, **studying**, o **working**. Also works related to digital/web competences and communication are mentioned.

EVALUATION

We used 2 simple evaluation forms, one open and one closed.

All items were well rated except of the previous information. Due to the big number of participants and actors involve in the communication process it's difficult to know the reason. Even a leaflet was sent, I think more clear information should be given from all, starting from me.

For the open evaluation we just focus on the best parts and change we should do. Best comments are about meeting others volunteers and spend time together, and the games and energizers we did.

We all would spend more time together and shared more.

Thanks to all the volunteers for coming and to all the organizations to enable this meeting and cooperating with Klubíčko Kroměříž.
